INDEX TO VOLUME 81

al-Ghazzāli's *Iḥyā' 'Ulūm al-Dīn* (Faris), 15
Amphibians, tailed, Vascularity in the brains of (Craigie), 21
Astrophysics, Symposium on, 107

Beebe, Ralph A. Adsorption calorimetry on catalytic materials and an account of some measurements on chromic oxide at − 183° C., 1
Berry, Edward W., Geology and paleontology of Lake Tacarigua, Venezuela, 547

Calorimetry, Adsorption, on catalytic materials and an account of some measurements on chromic oxide at − 183° C. (Beebe), 1
Case, E. C., Mastodons of Båråboedaer, 569
Chandrasekhar, S., Internal constitution of the stars, 153
Civets (Viverridae), Evolution and major classification (Gregory and Hellman), 309
Craigie, E. Horne, Vascularity in the brains of tailed amphibians, 21

David, Charles Wendell, Narratio de itinere navali peregrinorum hierosolymam tendentium et silviam capientium, A.D. 1189, 591
Dunham, Theodore, Jr., Material of interstellar space, 277

Electrons in metals (Houston), 525
Emeneau, M. B., Christian Todas, 93

Faris, Nabih Amin, *Iḥyā' 'Ulūm al-Dīn* of al-Ghazzāli, 15
Film, motion picture, Preservation and abuses of, by scientific institutions (E. R. F. Johnson), 79
Franklin Institute, Joint meeting with, 107
Frog sperm, Effect on the embryo of irradiation of (Rugh), 447

Gaposchkin, Cecilia Payne, Variable stars: a plan of study, 189
Geology and paleontology of Lake Tacarigua, Venezuela (E. W. Berry), 547
Gregory, William K., and Milo Hellman, Evolution and major classification of the civets (Viverridae) and allied fossil and recent Carnivora: a phylogenetic study of the skull and dentition, 309

Hellman, Milo (with W. K. Gregory, see Gregory)
Hoffleit, Dorrit, Observations of supernovae, 265
— Necessity for spectral subclassification, with a discussion of preliminary results for 1300 southern stars, 533
Houston, W. V., Electrons in metals, 525

Johnson, E. R. Fenimore, Preservation and abuses of motion picture film by scientific institutions, 79

Lang, Andrew G. (with Curtis L. Newcombe, see Newcombe)
Leaves, Starch dissolution and amylolytic activity in (Spoehr and Milner), 37

MacDougal, D. T., Features of growth-control in trees, 421
Marriage certificate in diploma form (Sanders), 581
Mastodons of Båråboedaer (Case), 569
Menzel, Donald H., Problems of the solar atmosphere, 107
Meteoroid orbits, Apparent distribution of (Watson), 481
Meteors, Study of fireball radiant positions (Watson), 473
— Study of telescopic (Watson), 493
— Binocular observations of 718 (Williams), 505
— Systematic biases of directions (Williams), 521
Milner, Harold W. (with H. A. Spoehr, see Spoehr)
Mollusks, Land, from Corn Island, Nicaragua (H. G. Richards), 29

Narratio de itinere navali peregrinorum hierosolymam tendentium et silviam capientium, A.D. 1189 (David), 591
Newcombe, Curtis L., and Andrew G. Lang, Distribution of phosphates in the Chesapeake Bay, 393

Paleontology and geology of Lake Tacarigua, Venezuela (Berry), 547
Phelps, William Lyon, Notes on Shakespeare, 573
Phosphates in Chesapeake Bay (Newcombe and Lang), 393

Richards, Horace G., Land mollusks from Corn Island, Nicaragua, 29

Rugh, Roberts, Developmental effects resulting from exposure to x-rays: effect on the embryo of irradiation of frog sperm, 447
Russell, Henry Norris, Stellar energy, 295

Sanders, Henry A., Soldier's marriage certificate in diploma form, 581
Shakespeare, Notes on (Phelps), 573
Sitterly, Charlotte M., Composition of the sun, 125
Spectral sub-classification, Necessity for (Hoffleit), 533
Spoehr, H. A. and Harold W. Milner, Starch dissolution and amylolytic activity in leaves, 37
Stars, 1300 southern (Hoffleit), 533
Struve, Otto, Stars with extended atmospheres, 211

Todas, Christian (Emeneau), 93
Trees, Features of growth-control in (MacDougal), 421

Watson, Fletcher, Study of fireball radiant positions, 473
— Apparent distribution of meteoroid orbits, 481
— Study of telescopic meteors, 493
Whipple, Fred L., Physical characteristics and origin of the supernovae, 253
Wildt, Rupert, Constitution of the planets, 135
Williams, J. D., Binocular observations of 718 meteors, 505
— Systematic biases of meteor directions, 521

X-rays, Developmental effects resulting from exposure to (Rugh), 447
